ARTICLE 3

LAND USE AND BUILDING TYPE. No business, trade, industrial or commercial enterprise of any kind shall be conducted thereon. For purposes of this Declaration, a facility operated to provide assisted living to individuals residing on the premises who do not own the exclusive fee title interest in the premises shall be considered a business, trade or commercial enterprise and shall therefore be a prohibited use of the property. No lot shall be subdivided in any manner except that the owner of one lot may acquire, own, develop, resell or for all purposes treat as one lot an individual lot together with a portion of a contiguous lot. The remaining portion cannot be developed as a remainder and must therefore be combined with the contiguous lot on either side with the result that two lots may be created from three smaller lots.

Multiple-story dwellings may not have less than 1400 square feet of total living area, 1200 square feet for duplexes. No dwelling shall have less than a two-car enclosed garage nor larger than a three-car enclosed garage. For the purpose of this paragraph, the basement, porch, steps and garage shall not be considered part of the living area.

DWELLING CONSTRUCTION. All dwellings shall be constructed on the lot and shall be permanent in nature. Only new materials may be used, except for used brick, beams, and the like if an integral part of the architecture of the building. All construction shall first be reviewed and approved pursuant to the provisions of Article 6 as set forth below. Within twelve (12) months from the date that foundation excavation work is first begun on such construction, all construction shall be completed to a state which appears to be finished when viewed from the exterior of the property.

BUILDING LOCATION. No building shall be located on any lot nearer than twenty-five (25) feet to the front property line, twenty (20) feet to the rear property line, or nearer than ten (10) feet to any side lot line. Buildings on corner lots shall maintain a twenty (20) foot setback from one street side property line and a twenty-five (25) foot setback from the other street side property line. Written exception to the requirements of this paragraph may be granted by the Architectural Control Committee.

BUILDING EXCAVATION/FOUNDATIONS. As much as possible of the excavated material created during building construction shall be used on the lot to establish proper site drainage and terrain for landscaping. The maximum exposed foundation above grade shall be eighteen (18) inches. All footings and foundations will be of poured concrete or concrete block construction.

TEMPORARY STRUCTURES. No trailer, basement, tent, shack, garage, barn or other such building erected or placed on any lot shall at any time be used as a residence, either temporarily or permanently.

VEHICLES. Mobile homes, motor homes, trailers, large trucks, unlicensed or unsightly vehicles shall not be parked or allowed to remain along roadways or on the property. Motor homes, trailers, pickups carrying campers, pickup campers not in use, boats and boat trailers shall be placed in a garage or other location where they are screened from view of the residences.

ANIMALS. No animals of any kind shall be raised, bred or kept on any lot, excepting that dogs, cats and other domestic animals may be kept and raised but not for commercial purposes. Permitted animals must be confined to the lot of their owner and not permitted to run at large.

GARBAGE. No lot shall be used or maintained as a dumping ground for rubbish. Trash, garbage or other waste shall be kept in covered, reasonably airtight containers. Such containers must be kept in a garage or other enclosed area.

FENCES. Owners of lots may have fences between residences and along rear and side lot lines to the rear lot line. The maximum height is five (5) feet. No fencing of any kind will be permitted on the street side of any lot from the front of the residence to the street property line.

LANDSCAPING. No hedge, shrubs or other plantings, or any fence shall be permitted which unreasonably obstructs the view of an owner or motor vehicle drivers. All driveways shall be paved with portland cement within one year of occupancy. Driveways will be large enough to accommodate a minimum of two vehicles. Landscaping shall be completed within one year of occupancy.

TELEVISION, RADIO ANTENNAS AND SATELLITE DISHES. No exterior television antennas or satellite dishes larger than 18" in diameter will be allowed. Satellite dishes will be screened from public and neighbors' view. No exterior radio antennas will be allowed on the premises, except that each premise will be allowed to install one exterior whip-type antenna not exceeding nine (9) feet in height. In any event, no mast or guy wire, or other operating material or structure shall be permitted, except base fastening mount.

WATER SUPPLY. No individual water supply system or systems shall be permitted on any building site. All water service must be furnished by public water connections. Individual lot owners are responsible to pay any connection charges.

SEWAGE DISPOSAL. No individual sewage disposal system shall be permitted. All sewage disposal shall be by connection to the Village County Sewer District sewage disposal system. Individual lot owners are responsible to pay all connection and monthly service charges to the sewer district. Individual lot owners are also responsible to pay the annual district tax assessment. Village County Sewer District has by creation of the district waived rights to protest annexation, under certain conditions, to the City of Kalispell for the entire subdivision and waived right to protest the creation of Special Improvement Districts after annexation for the sewerage improvements, water system, roads, walkways and sewer storm drains, storm drain retention basin and street lighting. This is a covenant on the land and extends to each individual lot owner.

COMMON AREA. The common areas such as parks, streets, storm drain system, and street lighting shall be controlled and maintained by the Association, provided that all or any part of said areas may be dedicated or transferred to any public authority. Common areas are to support previously platted phases, this phase and all future phases as shown on the preliminary plat.

SIGNS. Except for the Declarant or its agent, no signs shall be placed on any lot except name plates and one unlighted sign not exceeding three (3) square feet in surface area advertising the sale or lease of the lot or improvement thereof. Newspaper tubes (free-standing at the curb) will not be allowed.

NUISANCES. No noxious or offensive activity shall be carried on or permitted upon any lot, nor shall anything be done thereon which is or may become an annoyance or nuisance to the neighborhood. By way of illustration and not of limitation, the discharge of firearms and driving of motorcycles or snowmobiles on the common areas shall be a nuisance within the meaning thereof.

BURNING. Open fires are not permitted on the property except for the normal burning of seasonal yard and garden clean-up with proper permit if required from local authorities. Outdoor barbecues are not an open fire within the meaning hereof.

ARTICLE 4

AGRICULTURAL COVENANTS AND RESTRICTIONS.

Lot owners are advised that agricultural activities are conducted in the immediate vicinity which may produce odors, noise, dust, and involve the utilization of herbicides and pesticides, which can have an effect on this property.
